

Electricity network service fees

Seasonal, night-time and general distribution fees (incl. VAT 24%)

Network service product	Distribution fee cents/kWh	TAX CATEGORY 1	TAX CATEGORY 2
		Total distribution fee cents/kWh	Total distribution fee cents/kWh
<i>Electricity tax is included in the distribution fees</i>	0.0000	2.79372	0.07812
Seasonal electricity			
16 Nov–15 Mar 7:00am–9:00pm	8.74	11.53	8.82
At other times	2.67	5.46	2.75
Night-time electricity			
7:00am–10:00pm	6.15	8.94	6.23
10:00pm–7:00am	2.67	5.46	2.75
General electricity	4.85	7.64	4.93

Seasonal, night-time and general distribution fees (incl. VAT 24%)

Fuse size	Seasonal electricity, Night-time electricity Euros/month	General electricity Euros/month
1x16–35 A	---	34.47
1x16–35 A *	---	18.60
3x25 A *	43.03	20.47
3x25 A	43.03	34.92
3x35 A	70.33	54.06
3x50 A	114.59	78.46
3x63 A	153.79	101.82
3x80 A **	237.45	
3x100 A **	326.19	
3x125 A **	438.76	

*) Fixed fee for terraced houses and blocks of flats, when there are at least three premises behind the property connection.

**) Expiring product, no new contracts effective 1 Nov 2022

Service fees

Free services included in the electricity network service: connecting a new electricity supply; opening network service; changing network service product once a year; advice on electricity use; electronic Väppi energy coach service by registering at savonvoima.fi; electricity network outage service, Häiriöinfo; information on the location of cables owned by Savon Voima Verkko Oy; and advice on the felling of trees in accordance with line area contracts.

Electricity connection maintenance fee

An electricity connection maintenance fee is charged for maintenance of the electricity network service, which makes it possible to re-supply the electricity.

Electricity tax

The total distribution fee (incl. tax) is obtained by adding the electricity tax to the fixed distribution fee (incl. VAT). Effective 1 Jan 2021, the electricity tax is 2.79372 cents/kWh in tax category 1 and 0.07812 cents/kWh in tax category 2 (incl. VAT 24%) and 2.253 cents/kWh in tax category 1 and 0.063 cents/kWh in tax category 2 (incl. VAT 0 %).

Selecting and changing a network service product

Network service products may be selected freely. At the request of the electricity consumer, network service products may be changed no more than once a year.

Power electricity distribution fees (incl. VAT 0%)

Network service product	Distribution fee cents/kWh	TAX CATEGORY 1	TAX CATEGORY 2
		Total distribution fee cents/kWh	Total distribution fee cents/kWh
<i>Electricity tax is included in the distribution fees</i>	0.000	2.253	0.063
LOW VOLTAGE POWER ELECTRICITY			
Low voltage power electricity 1			
1 Nov–31 Mar	3.00	5.25	3.06
1 Apr–31 Oct	2.00	4.25	2.06
Low voltage power electricity 2			
1 Nov–31 Mar, Mon–Sat 7:00am–10:00pm	3.75	6.00	3.81
1 Nov–31 Mar, other time	2.39	4.64	2.45
1 Apr–31 Oct	1.43	3.68	1.49
Low voltage power electricity metered from the medium voltage side			
1 Nov–31 Mar	2.78	5.03	2.84
1 Apr–31 Oct	1.76	4.01	1.82
MEDIUM AND HIGH VOLTAGE POWER ELECTRICITY			
Medium voltage power electricity 1			
1 Nov–31 Mar	2.78	5.03	2.84
1 Apr–31 Oct	1.76	4.01	1.82
Medium voltage power electricity 2			
1 Nov–31 Mar, Mon–Sat 7:00am–10:00pm	3.54	5.79	3.60
1 Nov–31 Mar, other time	2.18	4.43	2.24
1 Apr–31 Oct	1.17	3.42	1.23
High voltage power electricity 110 kV			
Dec–Feb, Mon–Fri 7:00am–9:00pm	1.198	3.451	1.261
Other time	0.600	2.853	0.663

Power electricity fixed, active and reactive power fees (incl. VAT 0%)

	Low voltage power electricity 1*	Low voltage power electricity 2	Medium volt- age power electricity 1	Medium volt- age power electricity 2	High voltage power elec- tricity 110 kV
Fixed fee (€/month)	145.99	302.25	418.60	2 479.62	850
Active power fee (€/kW, month)	3.81	2.90	2.38	1.25	0.7
Reactive power fee (€/kVAr, month)	1.62	1.62	1.62	1.62	1.0**
Reactive energy fee, output (cents/kVArh)					0.5**
Reactive energy fee, input (cents/kVArh)					0.5**

*) Fees are also applied to the Metering of low voltage power electricity on the medium voltage side product.

***) To be invoiced starting on 1 July 2024.

Specification of invoiced power in electricity use

Invoiced power is specified each month according to the maximum hourly average power (60 minutes). Power fees are invoiced on a monthly basis all year round.

The reactive power fee is invoiced for the portion that exceeds the free 40% active power limit. The reactive power fee is defined monthly maximum average power (60 minutes).

The supply of reactive power into the electricity network is prohibited (capacitive reactive power).

Electricity tax

The total distribution fee (incl. tax) is obtained by adding the electricity tax to the fixed distribution fee (incl. VAT). Effective 1 Jan 2021, the electricity tax is 2.79372 cents/kWh in tax category 1 and 0.07812 cents/kWh in tax category 2 (incl. VAT 24%) and 2.253 cents/kWh in tax category 1 and 0.063 cents/kWh in tax category 2 (incl. VAT 0 %).

Electricity production distribution fees

The fees charged in accordance with this network service fee schedule entitle the electricity producer to use the entire national power grid for the sale of electricity.

Power plants of less than 1 MVA in the distribution network

	Incl. VAT 0%	Incl. VAT 24%
Distribution fee (cents/kWh)	0.00	0.00

Power plants of at least 1 MVA

	Incl. VAT 0%	Incl. VAT 24%
Distribution fee (cents/kWh)	0.07	0.087
Own production consumption fee (cents/kWh)		
Dec-Feb, Mon-Fri 7:00am-9:00pm	0.90	1.12
Other time	0.27	0.33
Active power fee for power plants	162.50 €/MW, month	201.50 €/MW, month
Reactive power fee, input (€/kVAr, month)	1	1.24*
Reactive energy fee, input (cents/kVArh)	0.5	0.62*

The adjustment and fee criteria for reactive power input are agreed on a case-by-case basis.

*) To be invoiced starting on 1 July 2024.

- The distribution fee is charged for the electrical energy supplied to the Savon Voima Verkkö Oy network.
- The consumption fee for own production is charged for the electrical energy that is both consumed and produced behind the electricity production connection.
- Savon Voima Verkkö Oy invoices the electricity drawn from the distribution network with a public network service product specified in the electricity producer's network contract.
- The active power fee for power plants is applied to the net active power fee for electricity production behind the connection point.
- Invoiced power is specified each month according to the maximum hourly average power (60 minutes).

Medium voltage network service (incl. VAT 0%)

Fixed fee (€/month)	146
Active power fee (€/kW, month)	1.25
Energy fee 1 Nov-31 Mar, Mon-Sat 7:00am-10:00pm (cents/kWh)	2.25
Energy fee other time (cents/kWh)	0.93
Reactive power fee, input (€/kVAr, month)	1*
Reactive energy fee, input (cents/kVArh)	0.5*

The adjustment and fee criteria for reactive power input are agreed on a case-by-case basis.

*) To be invoiced starting on 1 July 2024.
